The Recorder of the Company reported two fires and one false alarm during the month of May.

The committee having the matter in charge presented the resolutions of respect to the memory of the late Captain James M. Stewart, recently adopted by the company, handsomely framed.

The resolutions were received and a vote of thanks tendered to St. Tennesson & Co. for the contribution of the frame.

Resolutions of respect to the memory of the late H. V. Daniel were adopted, and the hall ordered to be draped in mourning.

The action of the Columbia Steam Fire Co., recommending Mr. E. H. O'Brien to the City Council for Chief Engineer of the Fire Department, was endorsed.

The committee appointed to make arrangements for the proposed visit of the Alexandria fire companies, which are visiting this city in August, reported progress, and the meeting adjourned.

**A WARNING TO LOTTERIES.**—Nearly every householder was compelled to employ colored help, is fretted out of temper daily at the length of time consumed by this class in going errands, notwithstanding the most imperative orders to make all haste. It generally happens that they must talkative acquiescence on such occasions; hence the time consumed in transacting some minor business, which in the end they generally get wrong, and eventually the much worried mistress is compelled to attend to herself. Nine times out of ten when the patience of a gentle housewife has been rendered treacherous at the extremely long time she has waited for some essential article sent for in a recent hurry, the irresponsible messenger is at that moment regaling herself in conversation at the house of some relative, for such opportunities are always taken to visit "cousins, sisters and aunts."

The case of a colored boy in Allentown, Pa., mentioned in yesterday's Gazette, who had been sent with a can of dynamite to a railroad depot, and who, instead of going quickly on his errand, stopped in a blacksmith shop for a few moments, ought to be given a deterrent to all such blithering characters. From some unexplained cause the can was exploded, killing all hands and making such a racket as to shake the building.

**THE MAHONE NOMINEES.**—The action of the Mahone convention in nominating Col. Mahone for Governor, John F. Lewis for Lieutenant Governor, and Frank S. Blair for Attorney General, was received by the Mahoneites in this city with a joy not unaccompanied with sorrow. The few Mahoneites here, are divided. A few wanted Mahone, a few wanted Massie, and a few wanted Grover. The Mahone-Groverites are divided, but the Grover and Massie men are depressed. The disappointed ones charge that but for the interference of General Mahone Massie would have been the nominee of the convention. The republicans, white and colored, of this city, like the poor boy at the frigate, have nothing to say. Many of them fever a straightened neck, but express themselves willing to abide by the action of their convention, which meets in Richmond in August next. One of the most intelligent republicans in the city said this morning that he thought it best to let the party to put up a straight ticket, as it would be better to be defeated fighting for principle, than to sacrifice principle, and be defeated. The ticket is regarded as a strong radical-radical combination, but no one believes for a moment that the action of the convention making it will be ratified by the people next November.

**THE MARKET THIS MORNING.**—The market this morning, notwithstanding the inclemency of the weather, was well supplied with vegetables and fruit. The country produce was the best of the season, and the prices for good crops were most favorable. Strawberries in abundance, sold at from 5 to 12 cents per box, green peaches 25 cents, per peck, cucumbers 50 cents per doz., string beans 60 to 70 cents, per peck, beans 10 cents per bushel, asparagus 50 cents per bushel, cabbage 40 to 50 cents, per head, lettuce 10 cents per head, butter 20 to 25 cents, per pound, eggs 10 cents, per doz. Fish—Shad 30 to 40 cents, per peck, surong 5 cents, per pound. The prices for meats and winter vegetables were unchanged. A small quantity of cherries were on hand. The display of flowers was very good.

**CHIEF ENGINEER OF THE FIRE DEPARTMENT.**—The determination of Edward S. Leach, Esq., to decline a re-election as Chief Engineer of the Fire Department, will be regarded with regret by the entire community. Under his charge the tone of the department has been elevated, its usefulness greatly increased, its organization rendered thorough, and its efficiency made unsurpassed by any similar department in the State or country. During his administration both system and order have prevailed, and his excellent judgment and firmness, and his decision to emergencies, has ever won for him the respect and esteem of the firemen and the confidence of the citizens generally. We trust his successor will prove equally as efficient and acceptable.

**THE LATE H. V. DANIEL.**—The Charlottesville Gazette says: "Mr. Daniel, during his residence here, was identified with nearly all the benevolent societies of the town. He was a member of the Monticello Guard, and at his death he was an honorary member of that organization. At one time he was engaged in the book business, but for a number of years before his departure from our midst conducted the 'Eureka House' in connection with his brother, Mr. John M. Daniel. After the destruction of their building by fire both of the brothers left Charlottesville. 'Val' Daniel, as he was familiarly termed, had many friends here, who will deplore his sudden and unexpected death."

**"THE LITTLE DELEGATE"**—Is the proceed of the Mahone Convention frequently mentioned in the "little delegate" from Alexandria. On the last ballot the Delegate report says: "The small delegate from Alexandria was now in order, and got in his vote for Cameron. Synphax said something about the Alexandria delegation, when Mr. Frazier replied that the little delegate had no right to vote. Another said 'Put him out.' He said he was coming here to raise the devil. Synphax said he begged my pardon, and if he has no right to vote I have none."

**POLICE REPORT.**—John Bell, the colored man arrested yesterday for beating his wife, Mary Bell, had an examination before the Mayor this morning. This being the third assault Bell has made upon his wife, he was fined \$100. In default of the payment of the said fine he was sent to jail for six months. A young man named Keegan, in default of the payment of a fine for being drunk and disorderly on the streets, was sent to jail. A stranger for being drunk on the streets was discharged with a reprimand.

**A NEW SCHOONER.**—The schooner Edwin C. Captain J. W. Hopkins which arrived here Thursday from Havre de Grace to Messrs. T. J. Mahaffy & Co. with coal, is a new vessel, she being the first trip she has made. The schooner was built at the yard of Isaac Davis, at Cambridge, Md., at a cost of about \$5,000. The boat is 86 feet in length, 23 feet 9 inches breadth of beam, and makes a fine appearance. Captain Hopkins says in a short time five more such schooners will be launched from the yards at Cambridge.

**THE MOUNT VERNON REGENTS.**—The approaching meeting of the regents of the Mount Vernon Ladies' Association promises to be one of unusual interest. The superintendent, Col. J. M. Hollingsworth, has recently received notifications of their intention to be present from the following vice regents, in addition to the regents already reported: Miss Alice Longfellow, Cambridge, Mass.; Mrs. Nancy W. Halsted, Newark, N. J.; Miss Emily Harpner, Baltimore, Md.; and Mrs. Mary Barnes, Washington, D. C.

**NEW PAVEMENTS FOR CULPEPER.**—The Council of Culpeper has decided upon new and substantial brick walks for that town. Dr. R. S. Lewis, the chairman of the Street Committee, has contracted with Messrs. O. Neal & Corbett, of this city, for 50,000 of the best brick, with the privilege of as many more as may be needed to lay the pavements. The firm will commence the delivery of the brick on the 15th of this month.

**WHIT SUNDAY.**—Tomorrow is Whit Sunday, which occurs on the seventh Sunday after Easter, and commemorates the descent of the Holy Ghost at Pentecost. Whitman now presents a dull appearance. All the fish agents have closed their places of business, and the fish cutters, who, but a few weeks ago made the weekly ring with their camp meeting songs, have disappeared. The plank walk has been taken up, and the few sturgeon arriving there, upon being sold, immediately carried away. A few had occasionally arrive at the wharf from the gilliers.

**SOUTHERN CONNECTIONS.**—Hon. John S. Barbour, President of the Virginia Midland Railroad, has written to President Venable, of the Augusta and Knoxville railroad, stating that he is prepared to make a proposition for the control of that road before any arrangement is arrived at with any other corporation. The Midland road, he says, will be a public highway, and he will not tolerate any other line or road, as his purpose is not to cut off other lines or to make any discriminations. His proposition is in this, as the City Council of Augusta has not closed with the Clyde combination, and will accept Mr. Barbour's proposition which they believe is for the best interest of the city. President Barbour says the line now being surveyed between Danville and Spartanburg, and people along the route are anxious that the road should be built.
